-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1794

Claims 33-37 are allowed.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-13, 15-22, 27, and 38 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Applicant does not clearly teach what is encompassed by "treating" or "enhancing." The use of these phrases does not clearly identify that which is being claimed.

Applicant's arguments filed August 15, 2007 have been fully considered but they are not persuasive.

Applicant argues that the specification identifies many embodiments of how proteins may be treated including adjustment of the system pH, temperature, pressure and/or overall ionic strength.

Applicant does not clearly teach how these adjustments take place. It is not clear how the pH, temperature, pressure, and/or ionic strength are adjusted to obtain an enhancement. It is not clear whether treatment involves increasing or decreasing any of

Art Unit: 1794

pH, temperature, pressure, and/or ionic strength. Applicant relies on the use of enhancement to clarify the treatment steps but Applicant does not clearly define what is encompassed by enhancement. Applicant introduces general concepts without specific instruction as to the claimed invention. It is not clear how any and all proteins are treated to provide enhancement.

It is suggested that Applicant clearly set forth limits on enhancement, wherein enhancement results in at least one of increased emulsion capacity and increased emulsion stability in comparison to an untreated protein.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leslie Wong whose telephone number is 571-272-1411. The examiner can normally be reached on Tuesday-Friday.
